

TRANSFORMATION IN HAITI

- AND IN OUR OWN LIVES -

We all know about the incredible devastation in Haiti last January. Phoenix Vision has begun a very exciting project there and we'd like to share our findings and intentions with you. Four facets to our project:

- HEALING OF TRAUMA AND OTHER DIFFICULTIES – powerful methods for Haiti and for ourselves
- COMMUNITY DEVELOPMENT – to create a foundation for people to help each other
- MICRO-FINANCING – to help people get on their feet
- HELP PEOPLE MOVE OUT OF THE DEVASTATED AREA

People have tried various aspects of this but, in order for positive change to happen, we need to take a holistic approach – all these levels at the same time. We used, and will show you, very powerful healing approaches.
